

Important COVID-19 Protocol Change

Beginning today, Tuesday, September 7th, if your child is identified as a close contact to a person who tested positive for COVID-19, he or she will be excluded from school and school related/extracurricular activities for 10 calendar days.

Close contact is defined as indoors, within 3 feet for 15 cumulative minutes. Close contacts will be verified using seating charts maintained by classroom teachers.

The following three exceptions will apply:

1. Student was wearing a properly fitted mask (verified by the teacher) and has no symptoms,
2. Student tested positive for COVID-19 within the last 90 days and has no symptoms, or
3. Student was fully vaccinated and has no symptoms.

If your child is identified as a close contact you will receive notification from the school administration or nurse indicating the date your child can return to school and extracurricular activities. Absences due to close contact will be excused and school work will be provided using technology resources such as IXL, Edgenuity, SeeSaw, Schoology, etc...

We appreciate your patience and understanding as we work together to slow the spread of COVID-19 in our schools and community. Our goal is to safely keep our schools open and avoid full remote teaching and learning. Our assessment and other data from the 2020-2021 school year indicates that a full virtual delivery of instruction is not beneficial for our student's academic growth as well as their social and emotional well-being.
